DETAILED ACTION

1. Applicant's election with traverse of Group I in a response filed 9/15/03 is acknowledged. The traversal is on the ground(s) that the inventions are related and examination of any claim group would be relevant to the examinations of the other group. This is not found persuasive because the search for a transfer switch with limit switches is different than a search for transfer switch body structure or the search for a transfer switch mounting plate.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 8-13, 17, 18, 28-33 and 37 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In Claim 8, "a solenoid side" and "a plurality" should be changed to --said solenoid side--and --said plurality--, because antecedent basis for these terms appear in the parent claim.

In Claim 9, "a mounting plate" should be changed to --said mounting plate--, because antecedent basis for this term appears in the parent claim; also "late" should be changed to --plate--.

Art Unit: 2832

In Claims 10-13, –auxiliary side—should precede “limit switches”, “mounting plate”, and “coplanar switches” to distinguish from the solenoid side previously recited in the parent claim.

Claims 17, 18, and 28-33, and 37 contain the same issues of indefiniteness as those previously illustrated, and should be corrected.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 7, 9, and 27 are rejected under 35 U.S.C. 102(b) as being anticipated by Sharaf, et al..

Sharaf discloses a main body including a solenoid 58, limit switches 48 and a mounting plate 42.

Allowable Subject Matter

6. Claims 16, 19, 20, 36, 38 and 39 are allowed.

7. Claims 8, 10-13, 28-33 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

8. Claims 17, 18, and 37 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Art Unit: 2832

9. The following is a statement of reasons for the indication of allowable subject matter: Sharaf, the closest prior art of record, failed to teach or disclose auxiliary side limit switches or limit switches arranged fixedly in coplanar pairs.
